

The emphasis on quality is in accordance with the quality system based on EN ISO 9001:2000. Stainless steel or brass and other parts are produced for very demanding German customers! Special requirements for the processing and quality of the products are checked at every order. The price of products is calculated individually on the basis of [demand](#) .

We will make you an offer in a very short time. We always intend to give the best possible prices for our customers and we are open to discussion.
